6 July 1964						
THIS SPACE FOR USE OF DIVISION AND BRANCH CHIEFS ONLY						
THE ATTRIBUTION OF THIS REPORT TO AUTHOR IS						
APPROVED			DISAPPROVED			
COMMENTS						
<p>This study originally was undertaken to clarify the question of what are the cable requirements of the USSR and how these requirements are related to COCOM embargo policies under Item #1526. The findings of this study have been used in the 1963-64 List Review in Paris, and it now seems appropriate that the findings and methodology of this study be made available to members of the [REDACTED] Intelligence Community. Because a study of this type is of such limited interest, it is my recommendation that this paper be published as an EIC Working Paper from the Electronics and Telecommunications Subcommittee. I have taken the liberty of coordinating a draft of this paper with members of the Subcommittee and of reproducing the Working Paper in finished form in 50 copies. St/PC will distribute these copies upon approval of the Acting Chairman, EIC.</p> <p style="text-align: right;">[Signature]</p>
